## Installation Sheet

Please read these instructions before installation and retain for future reference

### Important Information

- It is recommended that luminaires are installed and fitted by a qualified electrician
- These products are designed for connection to a 220-240V 50/60Hz supply.
- Any broken or damaged parts should be replaced as soon as possible.
- Lendian will not accept responsibility for any claims arising from a poor installation.
- **The light source of this luminaire is not replaceable: when the light source reaches its end of life, the whole of the luminaire must be replaced.**

### Important User Advice

- It is recommended that the ambient room temperature should not exceed 40°C.
- Ensure that there is adequate free air ventilation around the fitting.
- The installation must not infringe on water pipes or any other electrical services.
- Always switch off mains supply before fitting or servicing.
- This luminaire is suitable for indoor use only.
- Do not cover with insulation.

### Installation

- Check you have all the tools and accessories required to complete the installation correctly.
- Isolate the power before starting the installation.
